

Powder Packaging Line

1. Features

- 1.1 Acceptable for the measurement and packaging of ultrafine powder material, combines measuring, bag making, sealing, printing and counting with complete automation
- 1.2 Intelligent photoelectric, automatic control and monitoring system to perform stable and high production efficiency.
- 1.3. The system adopts independent mixing and automatic control parts to achieve high efficiency and stable performance
- 1.4 Integrated controller to ensure the accurate and stable packaging process
- 1.5 Easy operation by digital displayers
- 1.6 Quick action and long service life

2. Specifications

Type	SDL-F60
Bag Length (mm)	40-150
Bag Width (mm)	30-100
Packaging Volume (ml)	1-80
Packaging Speed (bags/min)	40-80
Power	380/220V 790/1000W
Overall Dimension (mm)	700*580*1550
Overall Weight (kg)	250

Sealing Form

three side or four side
